

Ipsos Global @dvisor Online Service

The Ipsos Global @dvisor Online Service delivers the answers to your questions – from across the country to around the world – every month.

Never has reaching out to the world been this easy. You choose the countries you want to survey, and our professional research staff take care of the rest. With capabilities in 24 countries, the *Ipsos Global @dvisor Online Service* provides the answers you’re looking for on a convenient monthly schedule.

Our international expertise ensures that all data is collected by Ipsos staff with results delivered by key regional and demographic breakdowns. Your detailed data tables will be delivered in a format that is the same for every country on your list, weighted to the general population.

And of course, if you’re only interested in results from a specific portion or segment of the general population, we can take care of that too.

Share the vehicle, not the results

Think of the Global @dvisor Online Service as your research carpool. You save money by sharing the vehicle (the survey), going to a common destination (respondents in your target countries). The individual question results however, are confidential and only available to you. It’s a cost effective shared vehicle for getting the answers you need at a fixed price.
